Noted

An extraordinary meeting of the Town Council is to be held on the 14th November to discuss and decide on the comments to be submitted.

5. PLANNING APPLICATIONS CONSIDERED BY THE COMMITTEE:

17/07666/OUT

Address: OS Parcel 8784 & OS Parcel 0006 Mill Lane, Monks Risborough And De Graven Meadows Askett Village Lane Askett, Buckinghamshire

Proposal: Outline application (Including details of access) for the erection of up to 300 dwellings with public open space, landscaping, sustainable drainage system (SuDS) and vehicular access points from Mill Lane and Askett Village Lane and demolition of existing buildings.

Princes Risborough Town Council views this speculative application as both unwelcome and unwanted. The proposed site falls outside of the main settlement area of the town in open countryside currently used as prime agricultural land. Until a time when development may be considered on this side of the railway line, and/or when parts of open countryside may be considered as potential development sites, PRTC will resist any premature attempts to preempt WDC's emerging Local Plan. PRTC are also mindful that sufficient reserved sites remain available within the district to counteract any need for this development.

Notwithstanding these concerns, this particular site lies alongside the East-West railway line for which major upgrading is planned and for which adjacent land will need to be made available. This particular area of Monks Risborough is also a flood risk area adding to the inappropriate nature of this application. Princes Risborough Town Council would recommend refusal.

Some of the points in the Princes Risborough Town Council's previous comments above have been superseded.

However, the substance of the Town Council's comments remains valid.

The Princes Risborough Town Council strongly objects to this application for the following reasons:-

- 1) The Town Plan is now far more advanced, which suggests the Gladman application by increasing the numbers from 170 to 300 is premature and is a buffer between the conservation area and the proposed development.
- 2) This increase will have a detrimental effect on the character and appearance of the area
- 3) The additional land now included will be detrimental to the supply of high quality agricultural land
- 4) Almost doubling the size of the development will have a materially detrimental effect on traffic
- 5) Almost doubling the size of the development will have a detrimental effect on sustainability
- 6) Almost doubling the size of the development will exacerbate safety for residents on the appeal site and in the vicinity due to flood risk
